I am a self-motivated, personable, and adaptable front end developer and designer who uses HTML5, CSS3, and JavaScript to develop responsive websites. I consider myself a meticulous designer and developer who is well-versed in a multitude of web technologies that I utilize to design responsive websites for users of all type with a focus on inclusion and accessibility.

| SKILLS | WORK EXPERIENCE |
|--|---|
| <div>HTML5</div> <div>CSS3</div> <div>JavaScript</div> <div>React.js</div> <div>HubSpot</div> <div>WordPress</div> <div>Adobe Illustrator + Photoshop</div> <div>Responsive Web Design</div> <div>Figma</div> <div>Web Accessibility</div> | <div>FRONTEND WEB DESIGNER DEVELOPER USALLIANCE / Massachusetts / 2023 - CURRENT</div> <div>I utilize design skills with HTML, CSS and JavaScript to create webpages, landing pages, and email templates that communicate the USALLIANCE brand. In this role I work closely with the Senior Design UX Manager, Marketing and Digital Banking team members to enhance member experience and continue to communicate the brand that is USALLIANCE Financial Credit Union.</div> <div>FRONTEND DEVELOPER + DESIGNER Freelance / Massachusetts / 2018 - CURRENT</div> <div>I started freelancing as a side gig in 2018 after attending Tidewater College where I majored and graduated with a Web Development certificate. My work as a freelance frontend developer is showcased on my portfolio site: https://tianamariah.github.io/PORT-2024. I have had the chance to design and build beautiful, clean, and responsive sites for science laboratories, authors, and creative artists. All of the sites I have created were designed with UI/UX and accessibility in mind, and were built with HTML, CSS, and vanilla JavaScript. I am also well-versed in React.js, WIX, WordPress and Squarespace.</div> <div>UI/UX WEB DEVELOPER - PROJECT COORDINATOR</div> <div>During my time at Edgesoft Inc, I completed many UI/UX tasks for the City of Beverly Hills, Southgate, and West Hollywood. These tasks included, webpage redesigns, creation, and maintenance. I used HTML, CSS, and JavaScript to produce clean frontend interfaces/applications for their citizens. I also worked as a project coordinator to help Edgesoft Inc's customer support team. I developed support process guides and videos to explain their new support process for their internal team and external clients.</div> |

| ATTRIBUTES | WORK EXPERIENCE (CONT.) | |
|---|---|---------------------------------------|
| Communication | HUMAN RESOURCES ASSISTANT Norfolk Public Schools / Virginia / 2020 - 2020 | |
| Ability to Work Under Pressure | During my time at Norfolk Public Schools, I worked under the Human Resources Director of the Special Education Department providing support for Health, Art, and Special Education teacher hiring. I coordinated background checks, drug tests and processed all employment documentation physically and virtually. I met with each hire in-person individually and explained/walked them through each step of their hiring documentation. | |
| Decision Making | JR EMAIL & WEB PRODUCTION DESIGNER LoyaltyExpress / Massachusetts / 2018 - 2019 | |
| Time Management | During my time at LoyaltyExpress, I worked under the head email developer to create and maintain email marketing digital assets for local and global bank companies using HTML and CSS. This required proofreading, performing Q/A checks, and converting email marketing designs from PSD files to responsive HTML and CSS code. | |
| Self-motivation | PROGRAM COORDINATOR Old Dominion University / Virginia / 2015 - 2018 | |
| Conflict Resolution | During my time at ODU, I processed and streamlined admission protocol for all applicants of the Masters of Engineering Management CD-ROM program. I used my data entry skills to successfully document each applicant digitally. I protected and maintained student records and all monies of the program. I answered email and phone calls regarding the program and tracked/created the calculation of monthly professor pay using Microsoft Excel. | |
