JavaScript
React.js
HubSpot
WordPress
Adobe Illustrator + Photoshop
Responsive Web Design
Figma
Web Accessibility

EDUCATION

B.A. ENGLISH LITERATURE
Worcester State University - MA

WEB DEVELOPMENT CERT
Tidewater College - VA

GENERAL STUDIES
Hunter College - NYC

WORK EXPERIENCE

FRONTEND WEB DESIGNER DEVELOPER USALLIANCE / Massachusetts / 2023 - CURRENT

I utilize design skills with HTML, CSS and JavaScript to create webpages, landing pages, and email templates that communicate the USALLIANCE brand. In this role I work closely with the Senior Design UX Manager, Marketing and Digital Banking team members to enhance member experience and continue to communicate the brand that is USALLIANCE Financial Credit Union.

FRONTEND DEVELOPER + DESIGNER Freelance / Massachusetts / 2018 - CURRENT

I started freelancing as a side gig in 2018 after attending Tidewater College where I majored and graduated with a Web Development certificate. My work as a freelance frontend developer is showcased on my portfolio site: <https://tianamariah.github.io/PORT-2024>. I have had the chance to design and build beautiful, clean, and responsive sites for science laboratories, authors, and creative artists. All of the sites I have created were designed with UI/UX and accessibility in mind, and were built with HTML, CSS, and vanilla JavaScript. I am also well-versed in React.js, WIX, WordPress and Squarespace.

UI/UX WEB DEVELOPER - PROJECT COORDINATOR

During my time at Edgesoft Inc, I completed many UI/UX tasks for the City of Beverly Hills, Southgate, and West Hollywood. These tasks included, webpage redesigns, creation, and maintenance. I used HTML, CSS, and JavaScript to produce clean frontend interfaces/applications for their citizens. I also worked as a project coordinator to help Edgesoft Inc's customer support team. I developed support process guides and videos to explain their new support process for their internal team and external clients.

I coordinated background checks, drug tests and processed all employment documentation physically and virtually. I met with each hire in-person individually and explained/walked them through each step of their hiring documentation.</div> <div>JR EMAIL & WEB PRODUCTION DESIGNER</div> <div>LoyaltyExpress / Massachusetts / 2018 - 2019</div> <div>During my time at LoyaltyExpress, I worked under the head email developer to create and maintain email marketing digital assets for local and global bank companies using HTML and CSS. This required proofreading, performing Q/A checks, and converting email marketing designs from PSD files to responsive HTML and CSS code.</div> <div>PROGRAM COORDINATOR</div> <div>Old Dominion University / Virginia / 2015 - 2018</div> <div>During my time at ODU, I processed and streamlined admission protocol for all applicants of the Masters of Engineering Management CD-ROM program. I used my data entry skills to successfully document each applicant digitally. I protected and maintained student records and all monies of the program. I answered email and phone calls regarding the program and tracked/created the calculation of monthly professor pay using Microsoft Excel.</div>
